Knives & Scrapers

Welcome to Jewel Blade

Jewel Blade a world-leading manufacturer of high precision blades for industrial and commercial applications. The company has been located in Sheffield, England at the heart of the British steel industry, for over 85 years. We are proud of our long history and unique manufacturing facilities. We display the legendary 'Made in Sheffield' as the mark of quality on our blades. This gives our customers the confidence to select Jewel Blade as a business partner.

The capability and experience of Jewel Blade's design and manufacturing ensures all bespoke and speciality blades are produced within an effective and efficient timescale for the client. Our flexible approach and reliable manufacturing facilities allow us to adapt to specific requests from our customers and the demands of the market sectors. Finest high-grade steels and specialist coatings are available to fulfill customer's specific needs.

Jewel Blade's comprehensive range of products and a customer-focused operation ensures customer's orders are delivered promptly from our stock.

Knives & Scrapers

Jewel Blade's commitment to testing and development makes its blades the first choice for these commonly used tools. The extensive range of handles, knives and scrapers, are suitable for many applications, for both the DIY enthusiast and professional tradesmen.
